

A blue circular badge with white text that reads 'Stockholm Building of the Year 2018'.

Stockholm  
Building of the  
Year 2018

A photograph of a modern school building with a large glass facade and a dark metal frame. The building is situated on a paved walkway with a white circular pattern on the ground. Several people are walking along the path. The sky is blue with some clouds.

The Långbrodal School. Innovative and sustainable

## €1.6 billion until 2022. We seek offers for hundreds of projects!

The increasing number of pupils makes The Stockholm School Properties Company (SISAB) invest record sums in new schools and preschools. In the next five years, we plan new constructions for over €1.6 billion. The goal is to increase the number of student places by 50 000 until 2040. At the same time, we will maintain and develop the 600 schools and preschools that we have today. For us, it is as important to retain the quality of existing facilities as building new ones.

**Are you our future partner for developing the Stockholm educational landscape? Join us today!**

## New Preschools of the Future

€165 million

Skolfastigheter i Stockholm AB

Box 47311, 100 74 Stockholm, Sweden  
[www.sisab.se](http://www.sisab.se)

The Stockholm School Properties Company (SISAB) is a municipal company that owns and manages the majority of Stockholm's preschools, compulsory schools and upper-secondary schools.

Our goal is to offer healthy, pleasant and suitable educational environments.

SISAB has 600 preschools, compulsory schools and upper-secondary schools in Stockholm, from Kista in the north to Farsta in the south. In total, we own and manage 1.8 million square metres, which around 200,000 people visit daily. We operate and maintain our properties, renovate and develop the facilities and construct new buildings.

Together, we create room for knowledge to grow.
